### TDC Systems Integration

Antonio Dozier, President/CEO  
Business Identity: Information Technology Solutions  
Year Established: 1995

**Early Obstacles:** In order to get proper financing, TDC System Integration had to take on high interest credit terms. The company strategically paid off the loans as quickly as possible in order to establish a good credit rating.

**Happy Clients:** More than 70 percent of TDC System Integration's business is generated from repeat business and client referrals.

**Making History:** The company is the only active African-American prime contractor for the Georgia Department of Transportation. TDC SI was awarded \$14 million in DOT contracts in 2006.
