

Dept. of Transportation

TDC Systems Integration is a Department of Transportation (DOT) certified, DBE vendor. Our staff has extensive knowledge managing and installing network infrastructures, ITS equipment, utility and other DOT systems.

We own and maintain a fleet of heavy equipment, which includes bucket trucks, trenchers, and backhoes. These resources allow our DOT Division staff to start work immediately and avoid costly delays waiting for needed equipment.

Since 2006, TDC Systems Integration has been one of only a few minority certified DOT prime contractors in Georgia. Our firm has been selected to complete more than \$14 million in Georgia DOT contract work.

Summary DOT Project List:

- Gwinnett Co. (200+) Traffic Signal Upgrades
- LaVista Rd. ITS upgrades
- Augusta, GA ITS Installation, mast lighting
- Big A Road ITS Installation Toccoa, GA

In addition to installing interstate overhead message board signage, intelligent traffic systems (ITS) and high mass lighting for GDOT, our firm also installs new pedestrian crossing signals and concrete ramps for wheelchair access.

TDC Systems Integration is an award-winning, multi-million dollar minority company located just north of Atlanta, GA.
