SECURITY SERVICES

It is mission critical that security systems effectively control access — providing easy access for those who are approved and effectively restricting those without clearance. Having a trusted partner with a depth of experience in establishing an infrastructure and security system is important to attaining safe, efficient operations.

The team at TDC Systems Integration has extensive experience installing the infrastructure for a variety of security related systems. This infrastructure equipment includes:

- Power supplies
- Equipment enclosures
- Raceway
- Indoor/Outside telecom cabling
- Fiber optic cable
- Conduit
- Wiring
- Termination boxes

TDC Systems Integration provides a full range of integrated access and surveillance systems as well as management and monitoring systems.

Whether it's a traditional access system or an extensive, state-of-the-art surveillance network, you can rely on TDC Systems Integration's experience and resources to meet all of your business security needs.
