

# TDC SYSTEMS INTEGRATION

Many would agree that humanizing today's technological advances is a job best left to the professionals. Since 1995, TDC Systems Integration, Inc. (TDC SI) has filled that role by working to bridge the digital divide for its customers and the community as a whole.

TDC SI is a full service systems integrator whose services and support focus on maximizing business productivity for companies of every capability, resource, and size. To help its clients achieve full productivity, TDC SI offers a broad range of solutions, from business systems automation and technical support to software development and training to network infrastructure implementation and indoor and outdoor cabling.

For TDC SI, the key to making technology usable is to remain flexible while customizing each solution. This approach to TDC SI's service delivery is much appreciated by a diverse clientele that includes organizations pertaining to aviation, public safety, judicial, technological, community services, etc.

Tony Dozier, owner, working with partners at the Hartsfield-Jackson Atlanta International Airport on the Wi-Fi Implementation Project. (l-r) John Green, Vice President of TBI Airport Management, Inc.; Olivier Layly, Regional Director, Sales and Marketing for SITA; Tony Dozier, President / CEO of TDC Systems Integration, Inc. TDC SI has successfully completed numerous projects for the airport.

Owner Tony Dozier oversees TDC SI personnel installing the outdoor fiber cabling portion of the City Court of Atlanta's new building network infrastructure project. The cabling connects the court building to the Atlanta City Hall data center.

In fact, TDC SI's list of client successes in Atlanta alone reveals a company that plays a big part in keeping this region of the world up and running. TDC SI's engineers, analysts, programmers, trainers, technicians, and consultants have played an integral part in system and service solutions for clients such as Lockheed Martin, Northrop Grumman, SAIC, General Electric, Johnson Controls, AT&T, CDC, HUD, U.S. Army Forces Command, U.S. Department of Defense, Cobb County, City of Atlanta, Fulton County, Hartsfield-Jackson Atlanta International Airport, Southern Polytechnic State University, SouthTrust Bank and many more. Whether it is designing and implementing a data center for a new building, upgrading existing flight information display systems (FIDS) and

development and encourages employee participation in off-site as well as company-offered continuing education and training. TDC SI knows the importance of such efforts in this fast evolving industry in order to keep employees on top of both current and emerging technologies.

**"...THE KEY TO MAKING TECHNOLOGY USABLE IS TO REMAIN FLEXIBLE WHILE CUSTOMIZING EACH SOLUTION."**

common use ticket equipment (CUTE) for airports, designing and implementing a state of the art cyber court room, or providing 24x7 technical support for a 911/emergency operations center, TDC SI is known for delivering excellence.

To continually ensure top-notch performance, TDC SI offers its employees many opportunities for growth and development. The company is committed to ongoing learning and

The company's success has also resulted in its ability to offer comprehensive benefit plans at a level competitive with fortune 500 companies. Consequently, TDC SI has managed to retain a substantial number of personnel, some of which have been with the company since its founding.

In addition to fostering an environment for advancement, TDC SI has been able to maximize business opportunities and achieve seemingly unattainable goals by adhering to elevated standards. Among these are the belief in managing performance and liability, making careful recruitment and selection decisions, and complying with strict government standards. As a result, TDC SI has grown into a company whose service area encompasses North and South America, Europe, Africa, etc.

Like TDC SI's clientele, the community has also come to rely on the expertise of their devoted professionals. The company's staff can be found helping out various organizations and charities in the metro Atlanta area by lending considerable time and talent to their needs. The people of TDC SI can be found assisting groups like the local little league baseball team, after school basketball programs, golf youth programs, area public schools, fraternities, churches, colleges and universities, women's shelters, NAACP, Red Cross, The Boys Club, YMCA, and various other charitable organizations. These efforts for

the good of society have positively impacted TDC SI's aspirations. Today, the company is moving beyond its role as a systems integrator into a position of leadership in community service strengthening TDC SI's conviction for using technology to help others succeed.
