Re: TDC Systems Integration

To Whom It May Concern,

I am providing this letter of reference for TDC Systems Integration and its President, Mr. Tony Dozier. In 2019 and 2020, TDC SI was employed by the Contractor on our Security System Replacement Project to provide management, commissioning, and closeout services on the project. I found the TDC SI staff to be intelligent, very knowledgeable, and professional. I was most impressed with the flexibility and "unsolicited" input they provided during their time on the project.

To my knowledge, TDC SI was instrumental in assisting the Contractor to manage the completion of a complex project integrating multiple security system programs into a single software platform. In addition to management services, TDC SI was able to interpret the integration project requirements and provide third party commissioning of the installation to confirm its functionality and compliance with the contract requirements. TDC SI was also instrumental in assisting the Contractor to close out the project by evaluating the project requirements and assembling the documents to meet those requirements.

I would recommend TDC Systems Integration be strongly considered by any business requiring a systems integrator partner.

Sincerely,

A handwritten signature in black ink that reads "Jim Flowers".

Jim Flowers
Project Manager
