OUR SOLUTIONS FOR U.S. COLLEGES AND UNIVERSITIES

Effective and Efficient Solutions are Needed Now

Student safety is no longer taken for granted following one of our nation's most violent campus shootings in American history at Virginia Tech in 2008.

TDC Systems Integration (TDCSI) is an award-winning, minority-owned IT firm providing technology-based security solutions to U.S. colleges and universities.

Most college and universities have security systems or mechanisms in place, however, these systems are typically outdated or work independently.

Upgrading or overhauling IT based security systems is our specialty.

SERVICES AVAILABLE

- Network Infrastructure
- CCTV Surveillance
- Public Address System Installation
- Existing Network Assessment
- Keyless Classroom/Dorm Entry
- Wireless Networking
- Security Camera Installation
- Email/Text Messaging Technology

Why Select TDCSI as Your Collegiate Security IT Solutions Provider?

TDC Systems Integration will meet and exceed your expectations. We are uniquely positioned as a leader in access control, wireless solutions, technology assessment, and systems integration.

In 2007, TDCSI received the following recognition:

Blue Ribbon Business Award—U.S. Chamber of Commerce

Inc. 5000 Award —listed as one of the fastest growing, private American companies

Supplier of the Year Award, Category III (State of Georgia)

Top 25 Business Award—Cobb County, GA

IT SOLUTIONS FOR U.S. COLLEGES & UNIVERSITIES

Contact TDCSI to find out how we can assess your network infrastructure needs and develop a plan to integrating security systems into a central command and/or operations center at your college or university.

Our campus security services include establishing motion sensitive surveillance cameras, and instant messaging to notify faculty, students and parents as well as local authorities in the event of an emergency.
